

Encourage one another daily, as long as it is called "Today." So that none of you may be hardened by sin's deceitfulness.

January 2018 Ministry Letter

It's a New Year

An exciting year to come! We think about the trials and tribulations we have been through and all of the things that could happen in the future but God says that His plans for us are good. If Gods plans are good why should we dwell on the bad things that could possibly happen? Did you know that 90% of the things that we are afraid of happening never happen? It's just a distraction that the devil uses to torment us. So this year lets not look at the bad things that might happen and look at what the Lord has for us. If we walk in faith and trust in Him what He said will come to pass. He gave us His Word on it, then wrote it down in a contract and signed it in blood so we know how valid it is. So let's take a second look at this coming new year and expect GREAT things!

Enjoy the New Year and have Fun! God Bless!

Greetings Precious Family and friends.

As we close out this very exciting Holy Ghost filled year of miracles, signs, and wonders we praise the Lord for His wonderful faithfulness! It's been a whirlwind of a year, time has gone so very fast. We began our year going west under the direction of the Holy Spirit! From Missouri to Texas, New Mexico, Arizona, and California where the Lord introduced us to so many beautiful people from the desert, oceans, mountains, and cities! We were able to minister the faithfulness of our God to precious hurting folks and had the privilege of introducing our Lord and Savior and His faithfulness to many.

This is just a small look of those that needed to hear the good news!

1. People living on the streets in tent cities along the on-ramps of the freeway.
2. Young and old sitting at the entrances of establishments in the severe heat of the day, homeless with grocery store carts and baskets filled with blankets and whatever personal belongings they had. A specific young man so overcome by drugs sitting cross-legged kept falling forward laying his head on the ground. I was not sure if he was even alive at first but as I investigated we discovered he was alive but as I said, overcome by drugs.
3. A young man in one of the RV parks recently divorced, broken and confused, his wife had left him taking their daughter for a life full

of sin and taking all they had. She decided, as in the Prodigal son story, to leave the life of Christianity, the love of a family, and the greatest love ever, Jesus for the world's ways.

4. Many widows and widowers that recently lost their spouses trying to pick up the pieces of their lives living in their RV's looking for direction for the next step feeling alone. A 94-year-old widow and her daughter recently widowed living in their RV that the daughter and her husband had bought just 3 years before. The day I met them in a laundromat the daughter said they were headed to Las Vegas for a concert her mother always wanted to see. They went to celebrate her 95th Birthday! Her comment to me was "I don't say, I'll do it tomorrow anymore!"

5. A young couple both raised in Christian homes coming from two different cultures living together.

6. A young Christian missionary family with a child they had adopted that came from another country where the god they served dealt in voodoo, witchcraft, etc. The child had been exposed to this lifestyle and the devil still had control over him. But God! Our God is greater!

These are a very few examples of those that we were honored to minister to on the first of 2017 for Jesus! To share the love and faithfulness of our God and see His powerful deliverance, healing, encouragement, and provision that Jesus paid a very big price for. He laid His life down for everyone no matter how they look, act, or think, Jesus loves them all! We stayed about four months in those areas then back to Oklahoma, Missouri and then to Mississippi,

Alabama, Louisiana, and Florida then back to minister in South Carolina, North Carolina, and Kentucky on our way back to Missouri for ministry meetings and holidays from October till January ending a very fulfilling powerful year 2017. There is so much more to share out of the year 2017 but not enough time and energy, we just wanted to give you a taste of where your love, prayers, gifts, encouragement, and finances have gone to for the glory of God!

We love you all and thank you so very much!

We believe 2018 will be a very awesome, anointed, healthy, joyful, prosperous and Holy Ghost lead year for you and your loved ones!

Lovingly in Christ

Well, I have been telling you almost every month the progress I have been making on my journey in healing and this month has been a whopper for me. Patti and I have been praying on this for over a year and just didn't feel it was time yet to proceed. You see I walk ok but my balance isn't totally there yet, I am still receiving my healing in that area. I am walking longer each day but it takes a lot of energy and concentration. People always are so kind and ask if they can help me get up or help with something I need, I am not trying to be rude but I always tell them no thank you I do this as a part of my therapy. No I don't go to a professional therapist, they gave up on me a couple years ago, but I have my great physician and He always shows me what I need to do. God uses Patti as she puts things in my way as I walk around, I don't think she does it on purpose but it makes me maneuver around and keep my balance it's a big help! When I first started driving God would give us a parking spot close to the front door, we don't have a handicap sticker because I am not claiming that I am handicapped just to get a parking spot close to the front door of a store or even church. The Word tells us we have what we say. I have noticed that I don't always get the close-up spot as I use to and I know it is God stretching me and increasing my restoration.

He knows what I need.

Having said all of that, here is the BIG news for this month! Remember when the Therapist said he doubted that I would ever get out of bed, or even sit up on my own? Well, as I said, Patti and I have been praying about this for over a year now so we decided to step out in faith and do it. I tried a few months ago while in a store and immediately fell into the cash register but this time I tried it in the store with no problem. We decided to purchase two bicycles. Patti wanted a three-wheel bike but I want a regular two-wheel bike, I thought I could get training wheels if I needed to. Just so you know they are foldable bikes so we can store them in the back of the SUV. Well the day came when it was time to ride the bikes, it was just like the old saying goes "It's just like riding a bike" and I did! I rode for almost an hour with no balance issues at all and no training wheels! My legs were burning by the time we got back to the RV but I felt wonderful. Since that day we have ridden a few more times and still, no issues just as long as the uphills are just little ones and not too long, downhill is just fine I can catch my breath. As a kid, I would ride all over the neighborhood and when Patti and I first got married we would ride our bikes, but we haven't done that in almost 35 years so even if it wasn't a big part of my restoration it still would have been a huge leap of faith just to ride again. I can't give God enough Praise and thanksgiving and I give Him all the Glory for all He has done! Not only am I alive but able to ride a bicycle again. God is so Good and Faithful!

Please remember I am telling you of my progress each month not to say how great I am but to encourage you to know how Great our God is and what He has done for Patti and I is so special to us and He will do the same for you. He is no respecter of persons if you have the need for healing, He said I am the God that heals you. If you have the need for finances He is the God of prosperity. The Bible is full of prosperity scriptures, it has never done anyone any good to be in poverty. The Bible is full of healing scriptures, being sick does three things, it kills some, it destroys your health, and it steals your finances, now who does that sound like? The devil who kills steals, and destroys it's not God. So put your faith in the Word of God and put your faith in God. What He has done for others He will do for you!

We Love You! God Bless!
Reagan and Patti
